## Having a set of useful insurance policies will give you greater peace of mind in life!

You take out a health policy to be seen more quickly and efficiently for diagnostic tests, specialist referrals, hospital appointments, etc. However, these policies have their complexities.

Health insurance anticipates future events, so that when an emergency crops up, you are ALREADY completely covered.

You need to buy yourself some time by organising your health while you are healthy. You will have much greater peace of mind.

### If you're well advised, you'll always have a good insurance policy.

#### Can you insure that you know how to buy the right insurance?

Insurance bought in the right way guarantees a consistent claim after an accident. Our role is making sure your insurance gets results when you have a problem.

- ✓ Your broker always handles your insurance for you.
- ✓ Your broker always has your back when you need it.
- ✓ It is just your broker who is standing up for your interests.

So, if you're not sure... ask your broker.
